Travel assistance services³

Medical assistance

Our multilingual team operates within a best-practice framework that places your health and well-being at the heart of our decision-making. Our care includes 24/7 emergency assistance and medical case management and extends to vaccination support, medical assessments, counseling, and mobile telemedicine. We also provide information on local medical facilities, clinics, and other service providers.

Medical consultation & monitoring

If you become seriously ill or injured, we will provide medical monitoring of your condition. All medical cases are reviewed by our medical case management team at inception of the claim. Medical monitoring is performed to ensure the appropriate level of care is provided and to determine the next steps within a case (i.e., if repatriation or evacuation is required).

Medical evacuation

If you require medical attention of an emergency nature that is unavailable locally and determined to be medically necessary, then you may be transported to a qualified facility capable of stabilizing and/or treating your medical needs. The assistance provider will make arrangements for ground/air transportation and accompanying medical care as needed.

Emergency medical payments

The assistance provider will deal directly with the facility to arrange for the bills to be sent to the appropriate insurance carrier. If treatment or discharge is denied without a deposit, then the assistance provider can arrange for the deposit by debiting a credit card or receiving a bank wire from either the eligible insured person or other party when payability is not yet established.

Prescription assistance

The assistance provider will arrange the replacement of medications that are lost, stolen, or spoiled during a covered trip, either locally or by special courier.

Dependent transportation & family visits

Depending on the coverage provided in the travel plan, the assistance provider will arrange for the return home and escort expenses of a minor (age 18 or younger) if they are left unattended on a covered trip due to hospitalization or death of the accompanying adult. If the travel plan provides coverage, then the assistance provider will arrange transportation for a person the insured chooses to visit them if the insured is traveling alone and hospitalized seven days or more.

Repatriation of remains

In the event of death, we liaise with our panel of vetted providers to arrange transport, burial, cremation, or the careful return of mortal remains.
